

TARUN KISHORE

Software Quality Assurance (SQA)

+91-9748758584 | kishoretarunuem@gmail.com | [Linkedin](#) | Bengaluru

Professional Summary - SDET / QA Engineer with 4+ years of experience in manual and automation testing across Agile environments. Strong expertise in Selenium Java automation frameworks, BDD/TDD, API testing, and CI/CD integration. Proven ability to Collaborate with cross-functional teams, ensure high-quality releases, and reduce regression effort through automation.

Technical Skills – Java 8, Selenium, Cucumber, TestNG, BDD, TDD, POM, Gherkin, Rest Assured, Postman, SoapUI, Jira, Playwright, Cypress, Tosca, Functional Testing, Regression Testing, Sanity Testing, Smoke Testing, API Testing, Jenkins, GitHub, Bamboo, Cross-browser testing, Mobile Testing (Android/iOS), Headless, Browser Stack, Oracle SQL, CI/CD, Azure DevOps, Maven

Project - UAD (Unified Agent Desktop)

April 2021 – Oct 2025

Client – PSCU

Team Size – 3 (QA Tester)

- A contact center solution from PSCU (Payments Credit Union Service Organization), supporting agent workflows, customer interactions, and transaction handling.
- It supports end-to-end agent workflows including customer lookup, service requests, and payment-related operations.
- Architecture maven project BDD-based Selenium Java automation framework using Cucumber, TestNG, and POM to validate end-to-end UAD application workflows.

Roles and Responsibilities

Quality Engineering Analyst – Accenture

Jun 2022 – Oct 2025

- Performed requirement analysis, test estimation, and test case design based on stories using Agile/Scrum methodology.
- Executed manual testing for Functional, UI, Sanity, Smoke, and Regression scenarios across multiple sprints.
- Identified, logged, and tracked defects in JIRA, carried out re-testing and regression validation after fixes.
- Developed and maintained Selenium WebDriver automation framework using Java, Cucumber (BDD), TestNG, and POM.
- Automated end-to-end business flows, significantly reducing manual regression effort during releases.
- Conducted API testing using Postman and SoapUI to validate backend services.
- Implemented cross-browser and headless testing, including execution on Browser Stack.
- Integrated automation suites with CI/CD pipelines (Jenkins, GitHub) for continuous testing.
- Participated in daily stand-ups, sprint planning, reviews, and retrospectives, collaborating closely with developers and stakeholders.
- Provided sprint-end demos and detailed test reports to stakeholders and clients.

Quality Engineering Associate – Accenture

April 2021 – May 2022

- Developed manual and systematized regression testing to ensure stable and defect-free releases.
- Designed and carried out test scenarios aligned with banking domain compliance standards.
- Developed and enhanced Selenium WebDriver automation scripts for end-to-end testing.
- Validated SQL database records to ensure data accuracy and integrity.
- Actively participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.
- Supported multi-time-zone teams and ensured on-time delivery with high-quality releases.

Education

Bachelor of Technology - Computer Science and Engineering (CSE)

Jun 2015 - Jul 2019

- University of Engineering and Management, Kolkata

CGPA – 7.73

Higher Secondary (CBSE 12th – PCM)

Jun 2013 - Jul 2015

- AL-Momin International School, Gaya, Bihar

66.40 %

Secondary (CBSE 10th)

Jun 2012 - Jul 2013

- AL-Momin International School, Gaya, Bihar

CGPA – 8.4

Language

- English
- Hindi
