Summary — SDET / QA Engineer with 4+ years of experience in manual and automation testing across Agile environments. Strong expertise in Selenium Java automation frameworks, BDD/TDD, API testing, and CI/CD integration. Proven ability to collaborate with cross-functional teams, ensure high-quality releases, and reduce regression effort through automation.

Skills

Testing Type : Functional Testing, Regression Testing, Sanity Testing, Smoke Testing, API Testing
Automation : Selenium (Java), Cucumber, TestNG, BDD, TDD, POM, Gherkin
API Testing : Postman, SoapUI
Defect Management : Jira, qTest
CI/CD DevOps : Jenkins, GitHub, Bamboo
Web/Mobile Testing : Cross-browser testing, Mobile Testing (Android/iOS), Headless, BrowserStack
Database Testing : Oracle SQL

Work Experience

Quality Engineering Analyst – Accenture Sept 2025 – Oct 2025
Client Project: UAD (Unified Agent Desktop – PSCU) – a contact center solution for PSCU (Payments Credit Union Service Organization), supporting agent workflows, customer interactions, and transaction handling.

- Performed requirement analysis, test estimation, and test case design based on stories using Agile/Scrum methodology.
- Executed manual testing for Functional, UI, Sanity, Smoke, and Regression scenarios across multiple sprints.
- Identified, logged, and tracked defects in JIRA, performed re-testing and regression validation after fixes.
- Developed and maintained Selenium WebDriver automation framework using Java, Cucumber (BDD), TestNG, and POM.
- Automated end-to-end business flows, significantly reducing manual regression effort during releases.
- Conducted API testing using Postman and SoapUI to validate backend services.
- Executed cross-browser and headless testing, including execution on BrowserStack.
- Integrated automation suites with CI/CD pipelines (Jenkins, GitHub) for continuous testing.
- Participated in daily stand-ups, sprint planning, reviews, and retrospectives, collaborating closely with developers, product owners, and business analysts.
- Provided sprint-end demos and detailed test reports to stakeholders and clients.

Quality Engineering Associate April 2021 – May 2022
Accenture – India
Client Project: UAD

- Executed manual and automated regression testing to ensure stable and defect-free releases.
- Designed and executed test scenarios aligned with banking domain compliance standards.
- Developed and enhanced Selenium WebDriver automation scripts for end-to-end testing.
- Performed SQL database validation to verify data accuracy and integrity.
- Actively participated in Agile ceremonies including sprint planning, daily stand-ups, and retrospectives.
- Supported multi-time-zone teams and ensured on-time delivery with high-quality releases.

Education

Bachelor of Technology (B.tech) - Computer Science and Engineering (CSE)	Jun 2015 - Jul 2019
University of Engineering And Management, Kolkata	CGPA - 7.73
Higher Secondary (CBSE 12th – PCM)	Jun 2013 - Jul 2015
AL-Momin International School, Gaya, Bihar	Percentage - 66.40
Secondary (CBSE 10th)	Jun 2012 - Jul 2013
Pragya Bharti Public School, Gaya, Bihar	CGPA - 8.4
