Summary — As experience of Software Professional with total 4+ years of Software Testing in Banking Domain and (Automation, Functional and Manual testing) with solid understanding of Test Planning, Test Design Thinking, Test Process and Quality Improvement, Test Execution and Strong expertise in Windows & Linux environments, REST API testing, defect management (JIRA, qTest), and Agile methodologies. Adept at collaborating with cross-functional teams to enhance software quality and reliability.

Skills

Testing Type : Functional Testing, Regression Testing, API Testing, Sanity Testing, Smoke Testing

Automation : Selenium (Java), Cucumber, TestNG, BDD, TDD, POM, Gherkin

API Testing : Postman, SoapUI

Defect Management : Jira, qTest

CI/CD DevOps : Jenkins, GitHub, Bamboo

Web/Mobile Testing : Cross-browser testing, Mobile Testing (Android/iOS), Headless, BrowserStack

Database Testing : Oracle SQL

Experience

Quality Engineering Analyst

June 2022 – Present

Accenture Kolkata – India

- Designed and executed manual and automated tests to validate software functionality and user experience.
- Performed functional, regression, and API testing using Postman and SoapUI.
- Developed and maintained Selenium automation frameworks (Java) integrated with CI/CD pipelines(Jenkins, Git, Maven, Bamboo).
- Led root cause analysis for defects, ensuring collaboration with developers for efficient resolution.
- Worked in multi-time zone teams, providing detailed test execution documentation and issue tracking.
- Maintain all the requirements and bugs tracked into sprint task using Jira.
- Providing demo to the client with all the functionality changes as per requirements during sprint end.
- Automating those all test cases parallel with sprint to avoid regression through manual approach.
- Enhancing the regression suites (TDD) according to new configuration requirement.
- Experience in knowledge transfer from overseas teams, ensuring effective communication and alignment.

Quality Engineering Associate

April 2021 – May 2022

Accenture Bangalore – India

- Conducted manual functional and regression testing for high-quality software delivery.
- Designed and executed test scenarios aligned with banking domain compliance.
- Developed and maintained Selenium-based automation scripts for end-to-end testing.
- Performed SQL-based database validation ensuring data accuracy and integrity.
- Participated in Agile development processes, including sprint planning, stand-ups, and retrospectives.

Education

Bachelor of Technology (B.tech) - Computer Science and Engineering (CSE)

June 2015 - May 2019

University of Engineering And Management, Kolkata

CGPA - 7.73

Higher Secondary (CBSE 12th – PCM)

June 2013 - May 2015

AL-Momin International School, Gaya, Bihar

Percentage - 66.40

Secondary (CBSE 10th)

June 2012 - May 2013

Pragya Bharti Public School, Gaya, Bihar

CGPA - 8.4

Projects

UAD (Unified Agent Desktop)

April 2021 - Present

- Unified Agent Desktop (UAD) is a contact center solution from PSCU, a payments credit union service organization.
- Analysis, Estimation and Test Cases Writing for requirements provided by client for this Agile methodology process Project.
- Manual Testing for both Functional and UI. Bug Reporting in JIRA and Re-testing after Fix in current Sprint.
- Development of Automated Scripts with Selenium WebDriver, Cucumber, TestNG Using Eclipse IDE.
- Covering end-to-end testing using Automation and Manual testing includes Sanity, Smoke, Regression.
